

# REACH/SVHC Confirmation

With this we confirm that all raw materials of Dokumental's inks bought by

**Mazzier**

as listed below:

**Dokumental 1527 PG3 blue**  
**0232 PG3 black**  
**0622 PG3 violet blue**

meet the requirements of REACH, and are registered according to 1907/2006/EC (REACH), either by us or our EU based raw material suppliers. The inks, which were produced by Dokumental Germany and are imported into the EU from outside the EU as part of writing instruments, have to be considered as re-imports as defined in REACH (see ECHA Fact Sheet ECHA-12-FS-07-EN)

[https://echa.europa.eu/documents/10162/13655/reach\\_factsheet\\_on\\_communication\\_obligation\\_en.pdf](https://echa.europa.eu/documents/10162/13655/reach_factsheet_on_communication_obligation_en.pdf)

In this case the importer has to ensure along the supply chain, that the inks remain chemically unchanged, when handled in the non-EU country in question. This is a general confirmation only. It is valid only in combination with our ink batch-based Certificate of Analysis (COA), which specifies the delivered type and quantity of ink. This COA is available on request. Furthermore we confirm that Dokumental does not use substances in the above listed products, which are listed in the most current issue of the Candidate List of Substances of Very High Concern, and that their concentration is below 0.1% respectively as it is demanded by the REACH Directive. The most recent issue of the SVHC candidate list can be found at:
